2004 Index

Article Index

A

All Controls Are Not Created Equal: Thermal Cutoffs Require Extra Consideration. *A. Delonno.* Oct.: 47-50.

Asbestos as a Work Hazard: Determining What Was Known & When. *W.P. Ringo.* Oct.: 51-56.

Assessing SH&E Research: Key Principles & Practical Strategies Improve Understanding. *E.S. Geller.* Sep.: 22-29.

B

Beauty of Intervention, The: Kitty Genovese Story Is a Call to Action for SH&E Professionals. *J.V. Kulis.* Sept.: 41-43.

Behavior-Based Safety Coaching: 10 Guidelines for Successful Application. *E.S. Geller, S.R. Perdue and A. French.* July: 42-49.

Belt Conveyor Safety: Understanding the Hazards. *L. Giraud, S. Masse and L. Schreiber.* Nov.: 20-26.

C

Commercial Kitchen Fires. *J.G. Gallup.* Aug.: 28-31.

Computer Ergonomics Programs: Risk-Based Approaches Maximize Their Impact. *H. McDermott, K. Lopez and B. Weiss.* June: 34-39.

Conveyor Safety: Task Analysis Procedure Helps Identify, Reduce Risks. *G.A. Schultz.* Aug.: 24-27.

Corrective Action Programs: Fixing Safety Problems & Keeping Them Fixed. *J.J. Loud.* Dec.: 32-36.

Cost of Safety, The: Cost Analysis Model. *M. Belm, A. Veltri and I.K. Kleinsorge.* Apr.: 22-29.

D

Directing the SH&E Function. *J.R. Harf.* Apr.: 41-45.

E

Effective Safety Incentives: A Pilot Program Based on Risk Reduction. *E.J. Sheehy.* Feb.: 40-49.

Elements of a Travel Safety Program: Tips for Crossing Distance Safely. *W.R. Coffey.* Jan.: 41-45.

Evaluation of a Decking Fall Protection System. *D.M. Paine and M. McCann.* June: 40-43.

H

Hand-Intensive Jobs: Effectively Evaluating Risk Levels. *S. Bao.* Jan.: 28-34.

I

Influencing the Behavior of Senior Leadership: What Makes a Great Safety Leader? *T.R. Krause.* June: 29-33.

Injuries & the Experienced Worker: "He Was Too Experienced to Have Done That." *D.G. Curry, R.D. Quinn, D.R. Atkins and T.C.G. Carlson* Sept.: 30-34.

Injury Ratios: An Alternative Approach for Safety Professionals. *F.A. Manuele.* Feb.: 22-30.

Is a Major Accident about to Occur in Your Operations? Lessons to Learn from the Space Shuttle *Columbia* Explosion. *F.A. Manuele.* May: 22-28.

Integrated Hazards Analysis. *S.R. Trammell, D.K. Lorenze and B.J. Davis.* May: 29-37.

J

Journey to a Definition of Chance: The Role of Chance in Accident Causation. *W.M. Montante.* Aug.: 36-40.

L

Latino Workers in the Construction Industry: Overcoming the Language Barrier Improves Safety. *R.F. Vazquez and C.K. Stalnaker.* June: 24-28.

Leadership & Safety Excellence: A Positive Culture Drives Performance. *D. Petersen.* Oct.: 28-37.

Leadership Without Authority: The Examples Set by Dr. Alice Hamilton. *S.M. D'Orsie.* Aug.: 32-35.

LEL Monitoring During Hazard Surveys for Issuance of Hot Work Permits. *S.P. Levine and J.R. Thornton.* Feb.: 31-39.

M

Machine Safeguarding: Building a Successful Program. *S.M. McConnell.* Jan.: 18-27.

Medication Errors: Lessons Learned & Actions Needed. *W.N. Kelly.* July: 35-41.

Mold Clean-Up Projects: Post-Remediation Criteria Are Crucial to Success. *M.A. Pinto, M. Davis and S. Eager.* Nov.: 42-50.

Mold Contamination Cases: Creating a Standard of Care for Technical Assessment & Support. *K.E. Anderson.* Sept.: 35-40.

N

Needlestick Injuries: The Scope of the Problem & Possible Solutions. *J.D. Ramsay.* Dec.: 20-25.

P

Preventing HAVS in the Workplace: Identifying Risk of Hand-Arm Vibration Syndrome. *C.A. Janicak.* Jan.: 35-40.

Professional Certification: Its Value to SH&E Practitioners & the Profession. *P.S. Adams, R.L. Brauer, B. Karas, T.F. Bresnahan and H. Murphy.* Dec.: 26-31.

Protecting First Responders: Analyzing PPE Guidelines Distributed at the WTC & Pentagon. *W.A. Groves, R.V. Ramani, M.C. Radomsky and J.P. Flick.* Nov.: 31-41.

Public Safety: Assessing Risks of Hydroelectric Power-Generating Facilities. *J.F.K. Froats and B. Tanaka.* May: 41-49.

R

Risk Assessment: A Review of the Fundamental Principles. *B.W. Main.* Dec.: 37-47.

S

Safety at Fort Dearborn Co.: Transforming from "Most Wanted" to Best in Class. *M. Saujani and N. Adler.* Mar.: 25-31.

Safety Climate: Assessing Management & Organizational Influences on Safety. *D.M. DeJoy, R.R.M. Gershon and B.S. Schaffer.* July: 50-57.

Safety Incentives: A Study of Their Effectiveness in Construction. *P.M. Goodrum and M. Gangwar.* July: 24-34.

Safety Program Elements in Construction: Which Ones Best Prevent Injuries, Control Costs? *M. Findley S. Smith, T. Kress, G. Petty and K. Enoch.* Feb.: 14-21.

SARS: Preventive Plans Key to Managing Health Risk in a Construction Environment in China. *D.W. Moore.* Mar.: 18-24.

SH&E Professional, The: Leader & Change Agent. *A.J. DeRose.* Mar.: 40-43.

Secondary Dust Explosions: Lessons from the Plastics Processing Industry. *D.K. Hayden.* Nov.: 27-30.

Setting a Practical Injury-Rate Goal. *P.L. Clemens.* May: 38-40.

Six Sigma: Problem-Solving Techniques Create Safer, Healthier Worksites. *J.B. ReVelle.* Oct.: 38-46.

T

2004 ASSE Compensation Survey: A Summary Report. Oct.: 26-27.

U

Uninspected Vessel Sector, The: The *Chao v. Mallard Bay* Decision. *J.D. Beech.* Apr.: 30-34.

Uninspected Vessel Sector, The: Practical Considerations of OSHA Compliance. *J.D. Beech.* Apr.: 35-40.

V

VX Nerve Agent, The: Understanding the Risks of a Deadly Threat. *G.R. Sugg.* Mar.: 32-39.

Subject Index

ASSE Foundation Research
Safety Incentives: A Study of Their Effectiveness in Construction. P.M. Goodrum and M. Gangwar. July: 24-34.

Business of Safety
Cost of Safety, The: Cost Analysis Model. M. Behm, A. Veltri and I.K. Kleinsorge. Apr.: 22-29.

Compliance
Uninspected Vessel Sector, The: The *Chao v. Mallard Bay* Decision. J.D. Beech. Apr.: 30-34.
Uninspected Vessel Sector, The: Practical Considerations of OSHA Compliance. J.D. Beech. Apr.: 35-40.

Construction Safety
Evaluation of a Decking Fall Protection System. D.M. Paine and M. McCann. June: 40-43.

Continuous Improvement
Six Sigma: Problem-Solving Techniques Create Safer, Healthier Worksites. J.B. ReVelle. Oct.: 38-46.

Emergency Response
Protecting First Responders: Analyzing PPE Guidelines Distributed at the WTC & Pentagon. W.A. Groves, R.V. Ramani, M.C. Radomsky and J.P. Flick. Nov.: 31-41.

Employee Health
SARS: Preventive Plans Key to Managing Health Risk in a Construction Environment in China. D.W. Moore. Mar.: 18-24.

Environmental Health
Mold Contamination Cases: Creating a Standard of Care for Technical Assessment & Support. K.E. Anderson. Sept.: 35-40.

Ergonomics
Hand-Intensive Jobs: Effectively Evaluating Risk Levels. S. Bao. Jan.: 28-34.
Computer Ergonomics Programs: Risk-Based Approaches Maximize Their Impact. H. McDermott, K. Lopez and B. Weiss. June: 34-39.

Fire Safety
Commercial Kitchen Fires. J.G. Gallup. Aug.: 28-31.

Hazard Analysis
Public Safety: Assessing Risks of Hydroelectric Power-Generating Facilities. J.F.K. Froats and B. Tanaka. May: 41-49.

Hazard Assessment
Is a Major Accident about to Occur in Your Operations? Lessons to Learn for the Space Shuttle *Columbia* Explosion. F.A. Manuele. May 22-28.

Hazard Identification
Preventing HAVS in the Workplace: Identifying Risk of Hand-Arm Vibration Syndrome. C.A. Janicak. Jan.: 35-40.

Subject Index

Hazard Awareness
Secondary Dust Explosions: Lessons from the Plastics Processing Industry. D.K. Hayden. Nov.: 27-30.
Asbestos as a Work Hazard: Determining What Was Known & When. W.P. Ringo. Oct.: 51-56.

Healthcare Issues
Medication Errors: Lessons Learned & Actions Needed. W.N. Kelly. July 35-41.

Human Factors
Injuries & the Experienced Worker: "He Was Too Experienced to Have Done That." D.G. Curry, R.D. Quinn, D.R. Atkins and T.C.G. Carlson. Sept. 30-34.

Injury Analysis
Injury Ratios: An Alternative Approach for Safety Professionals. F.A. Manuele. Feb.: 22-30.

Injury & Cost Control
Safety Program Elements in Construction: Which Ones Best Prevent Injuries, Control Costs? M. Findley, S. Smith, T. Kress, G. Petty and K. Enoch. Feb.: 14-21.

Leadership
Influencing the Behavior of Senior Leadership: What Makes a Great Safety Leader? T.R. Krause. June: 29-33.
Leadership Without Authority: The Example Set by Dr. Alice Hamilton. S.M. D'Orsie. Aug.: 32-35.

Machine Safety
Belt Conveyor Safety: Understanding the Hazards. L. Giraud, S. Masse and L. Schreiber. Nov.: 20-26.

Materials Handling
Conveyor Safety: Task Analysis Procedure Helps Identify, Reduce Risks. G.A. Schultz. Aug.: 24-27.

Mold
Mold Clean-Up Projects: Post-Remediation Criteria Are Crucial to Success. M.A. Pinto, M. Davis and S. Eager. Nov.: 42-50.

Occupational Hazards
Needlestick Injuries: The Scope of the Problem & Possible Solutions. J.D. Ramsay. Dec.: 20-25.

Organizational Culture
Leadership & Safety Excellence: A Positive Culture Drives Performance. D. Petersen. Oct.: 28-37.

Other Voices
Journey to a Definition of Chance: The Role of Chance in Accident Causation. W.M. Montante. Aug.: 36-40.
Beauty of Intervention, The: Kitty Genovese Story Is a Call to Action for SH&E Professionals. J.V. Kulis. Sept.: 41-43.

Performance Improvement
SH&E Professional, The: Leader & Change Agent. A.J. DeRose. Mar.: 40-43.

Product Safety
All Controls Are Not Created Equal. A. Delonno. Oct.: 47-50.

Professional Development
Assessing SH&E Research: Key Principles & Practical Strategies Improve Understanding. E.S. Geller. Sept.: 22-29.
Professional Certification: Its Value to SH&E Practitioners & the Profession. P.S. Adams, R.L. Brauer, B. Karas, T.F. Bresnahan and H. Murphy. Dec.: 26-31.

Program Development
Machine Safeguarding: Building a Successful Program. S.M. McConnell. Jan.: 18-27.
Elements of a Travel Safety Program: Tips for Crossing Distance Safely. W.R. Coffey. Jan. 41-45.
LEL Monitoring During Hazard Surveys for Issuance of Hot Work Permits. S.P Levine and J.R. Thornton. Feb.: 31-39.
Effective Safety Incentives: A Pilot Program Based on Risk Reduction. E.J. Sheehy. Feb.: 41-49.
Safety at Fort Dearborn Co.: Transforming from "Most Wanted" to Best in Class. M. Saujani and N. Adler. Mar.: 25-31.
Integrated Hazards Analysis. S.R. Trammell, D.K. Lorenzo and B.J. Davis. May: 29-37.
Corrective Action Programs: Fixing Safety Problems & Keeping Them Fixed. J.J. Loud. Dec.: 32-36.
Risk Assessment: A Review of the Fundamental Principles. B.W. Main. Dec.: 37-47.

Safety Management
Behavior-Based Safety Coaching: 10 Guidelines for Successful Application. E.S. Geller, S.R. Perdue and A. French. July: 42-49.

Safety Metrics
Setting a Practical Injury-Rate Goal. P.L. Clemens. May: 38-40.

Safety Research
Safety Climate: Assessing Management & Organizational Influences on Safety. D.M. DeJoy, R.R.M. Gershon and B.S. Schaffer. July: 50-57.

Security
VX Nerve Agent, The: Understanding the Risks of a Deadly Threat. G.R. Sugg. Mar.: 32-39.

Survey Results
2004 ASSE Compensation Survey: A Summary Report. Oct.: 26-27.

Worker Protection
Latino Workers in the Construction Industry: Overcoming the Language Barrier Improves Safety. R.F. Vazquez and C.K. Stalnaker. June: 24-28.
